Universidad Torcuato Di Tella is a research University whose mission is to contribute to the advancement of knowledge, the pursuit of intellectual, scientific, and artistic excellence within a framework of freedom of expression, pluralism, and diversity of approaches.

The Research Newsletter reflects the research activity of our faculty. It includes publications, awards, research grants and scholarships obtained, as well as participation in Argentine and international seminars and conferences.

The newsletter has two annual editions. With the aim of disseminating the research developed by our regular academic staff to an international audience, this year we are also launching the newsletter in its English version.

This newsletter is a joint effort of the Academic Secretariat of the University and the Research Support area of the Library. Each publication reflected in this newsletter contributes to the update of our [Digital Repository](#) and the acquisition of [new books by Torcuato Di Tella](#) authors published each semester.
