Universidad Torcuato Di Tella is a research university whose mission is to contribute to the advancement of knowledge, the pursuit of intellectual, scientific, and artistic excellence within a framework of freedom of expression, pluralism, and diversity of approaches.

The Research Newsletter reflects the research activity of our Faculty. It includes publications, awards, research grants and fellowships received, as well as participation in national and international seminars and conferences.

To disseminate the research conducted by our regular academic staff to an international audience, the Newsletter is published biannually in both Spanish and English.

This newsletter is a joint effort of the Academic Secretariat of the University and the Research Support area of the Library. Each publication reflected in this newsletter contributes to updating our [Digital Repository](#) and to the acquisition of [new books by Universidad Torcuato Di Tella authors](#) published each semester.

Finally, we inform you that you can access the [Guía práctica sobre cómo incluir el nombre y la filiación de investigadores en publicaciones académicas](#) in the institutional repository.

Honorary Doctorate

Thomas J. Sargent

UTDT Awarded Thomas Sargent the Honorary Doctorate

On December 11, our University awarded the title of Honorary Doctorate to Thomas Sargent, a distinguished economist and 2011 Nobel Laureate in Economics.

Sargent is internationally renowned for his contributions to macroeconomics, expectations formation, economic history, and econometrics. He is a Professor of Economics and Business at New York University and a member of both the American Academy of Sciences and the American Academy of Arts and Sciences.

Since 1998, Sargent has maintained a close academic connection to UTDT, participating in conferences, teaching courses, and contributing to the institution's development. This distinction, unanimously approved by the Academic Board and the Management Board upon the recommendation of the Departamento de Economía, highlights his intellectual impact and generosity towards the university.
